EDITOR-IN-CHIEF

Włodzimierz Okrasa, University of Cardinal Stefan Wyszyński, Warsaw, and Statistics Poland

EDITORIAL BOARD

Dominik Rozkrut, (Co-Chairman) Statistics Poland, Warsaw, Poland

Waldemar Tarczyński, (Co-Chairman) University of Szczecin, Szczecin, Poland

Czesław Domański, University of Łódź, Łódź, Poland

Malay Ghosh University of Florida, Gainesville, USA

Graham Kalton, Westat, Rockville, USA

Mirośław Krzyśko, Adam Mickiewicz University in Poznań, Poland

Partha Lahiri, University of Maryland, College Park, USA

Danny Pfeffermann, Central Bureau of Statistics, Jerusalem, Israel

Carl-Erik Särndal, Statistics Sweden, Stockholm, Sweden

Jacek Wesolowski, Warsaw University of Technology and Statistics Poland

Janusz L. Wywiat, University of Economics in Katowice, Poland

Founder / Former Editor: **Jan Kordos**

News from Indexation Bases

SiTns was added to three new databases in 2020:

WorldWideScience.org - WorldWideScience.org is a global science gateway—accelerating scientific discovery and progress through a multilateral partnership to enable federated searching of national and international scientific databases and portals.

Technische Informationsbibliothek (TIB) - German National Library of Science and Technology - The German National Library of Science and Technology (German: Technische Informationsbibliothek), abbreviated TIB, is the national library of the FRG for all fields of engineering, technology, and the natural sciences.

TDNet - TDNet is leading technology and content provider of solutions for individual libraries, knowledge centers and IT organizations in companies, hospitals and consortia.

The latest issue:

Volume 22, Number 3, September 2021

ISSN 1234-7655

STATISTICS IN TRANSITION

new series

An International Journal of the Polish Statistical Association and Statistics Poland

IN THIS ISSUE:

Al-Nasser A. D., ul Haq M. A., Acceptance sampling plans from a truncated life test based on the power Lomax distribution with application to manufacturing

Iseh M. J., Enang E. L., A calibrated synthetic estimator for small area estimation

Szymański A., Rossa A., The Complex-Number Mortality Model (CNMM) based on orthonormal expansion of membership functions

Abu Awwad R. R., Bdair O. M., Abufoudeh G. K., Bayesian estimation and prediction based on Rayleigh record data with applications

Sharma V., Kumar V., Trade potential under SAFTA between India and other SAARC countries: the augmented gravity model approach

Yousif H. M., Ali M. M., Goual H., Ibrahim M., A new Reciprocal Rayleigh Extension: properties, copulas, different methods of estimation and a modified right censored Test for validation

Boratyńska A., Robust Bayesian insurance premium in a collective risk model with distorted priors under the generalised Bregman loss

Bouazzaoui H., Elomary M. A., Mamouni M. L., An application of persistent homology and the graph theory to linguistics: The case of Tifnagh and Phoenician scripts

Dar S. A., Hassan A., Ahmad P. B., Wani S. A., A new count data model applied in the analysis of vaccine adverse events and insurance claims

Grzenda W., Modelling the occupational and educational choices of young people in Poland using Bayesian multinomial logit models

Rehman S. A., Shabbir J., On improvement of paired ranked set sampling to estimate population mean

IMPORTANT ACHIEVEMENTS IN 2020

- The journal's CiteScore has increased in 2019 and reached 0.5 (2018: 0.4).
- SJR 2019: **0.254** ; SNIP: **0.337**.

SCOPUS:

„This is a professionally run journal of wide interest. An interesting feature is the brief introduction in each issue given by an editor. This will be seen by readers as evidence of close editorial scrutiny and enhance the credibility of the journal, besides being of interest in itself” - from the final evaluation report of the SCOPUS' Content Selection & Advisory Board (CSAB)

EDITORIAL POLICY

Statistics in Transition new series (SiTns) provides a forum for exchange of thoughts and experiences among members of the international scientific community, both academics and producers and users of statistics, including policy makers and practitioners in various spheres.

The broad objective of *SiTns* is to advance the statistical and associated methods used primarily by statistical agencies and other research institutions.

To meet that objective, the journal encompasses a wide range of topics in statistical design and analysis.

TOP articles in recent issues:

- A. Jędrzejczak, J. Kubacki, Estimation of Income Characteristics for Regions in Poland Using Spatio-Temporal Small Area Models vol. 20. No. 4/ 2019- 509 views
- A. Rabe, D. K. Shangodoyin, K. Thaga, Linear Cholesky Decomposition of Covariance Matrices in Mixed Models With Correlated Random Effects- vol. 20. No.4/2019- 320 views
- H. Razzak, Ch. Heumann, Hybrid Multiple Imputation in a Large Scale Complex Survey- vol. 20. No.4/2019.- 299 views
- R. Tharshan, P. WijekoonA Comparison Study on a New five-Parameter Generalized Lindley Distribution with its Sub-Models, vol. 21.No 2/2020- 257 views .
